Introduction:

What is the Degree Audit?

The degree audit is an automated application that tracks a student’s progress toward degree completion.
Introduction:

What are its capabilities?

- Track Course Requirements
- Allows for sharing between requirements
- Track Milestones
  - Foreign language proficiency exam
  - Comprehensive exam
  - Dissertation defense
Introduction:

What are its capabilities?

- Set and Enforce Limits (global/local)
- Automate Rules
- Allows for Adjustments
  - Exceptions
  - Overrides
  - Substitutions
Introduction:

What are the benefits?

- Accurately plan and track degree requirements
- Apply and confirm degree/major adjustments
- Live view of student progress
Introduction:

What are the benefits?

- Date based requirements
- What If and Planner reports provide planning tools to students and faculty/staff
- Analysis of degree audit data
Introduction:

Scope:

- All Undergraduate majors
- Catalog Year: 2009-2010
- Requirements:
  - All General Education requirements
  - All Degree requirements
  - All Major requirements (including tracks, concentrations...etc.)
Audit Architecture

Data:
- Academic Structure
- Effective Date
- Course Catalog
- Enrollments & Grading

Structure:
- Requirement Groups
- Requirements
- Course Lists
