Welcome to the College of Arts & Sciences, the academic core of UNC-Chapel Hill and the place many refer to as the heart and soul of Carolina.

Our faculty are being challenged to teach in new ways as circumstances lead us to adapt new pedagogical models of remote and hybrid teaching. Fortunately, instructional innovation is a strength for which the College is known, and I am confident that the approaches we are developing now will position us as leaders for years to come.

Over the past few years, we have aspired to reimagine our general education curriculum. The IDEAs in Action curriculum is designed to prepare our students to become lifelong learners, approaching the world with curiosity and open minds. It will emphasize key capacities and experiential education and provide a strong foundation for our first-year students. Some elements of the new curriculum have already been phased in, but it will be formally rolled out in fall 2022.

Beyond our curriculum, we are seeking to erase the artificial boundaries between academic disciplines by encouraging more interdisciplinary collaborations across the arts and humanities, social sciences and natural sciences. We understand the importance of multiple perspectives and diverse skills if we intend to take on the challenges of today — and tomorrow.

We also strive to foster an environment in which every member of the College community feels valued, respected, engaged and empowered. Our people are our greatest strength.
TEACHING AT CAROLINA

College of Arts & Sciences faculty teach the overwhelming majority of credit hours at Carolina.

RESEARCH AT CAROLINA

Research at UNC-Chapel Hill has quadrupled over the past 15 years, firmly establishing Carolina as one of the nation’s top-ranked research universities.

- UNC conducted nearly $1.1 billion of sponsored research from all sources in FY21.
- The National Science Foundation ranks UNC 6th nationally for federal research expenditures and 12th nationally in total research expenditures.
- The College of Arts & Sciences, with $127 million in research funding (by P.I. appointing department), is the third-largest research enterprise at UNC, behind the schools of medicine and public health.

CAMPAIGN FOR CAROLINA

As of FY21, The College had raised $617 million toward its $750 million goal in the university-wide, $4.25 billion For All Kind: The Campaign for Carolina.

Dean Rhodes’ signature campaign initiatives include: Chancellor’s Science Scholars • Convergent Science • Program for Public Discourse • Southern Futures
